

Granite Accents, Inc.
Granite Material Waiver

To our natural stone customers:

Thank you for choosing Granite Accents Inc. as your natural stone fabrication and installation contractor.

Granite Accents Inc. always provides our customers the option to select the slabs that will be used for their particular application. If you choose to waive that option and would like Granite Accents Inc. to select slabs on your behalf we do need you to understand the below listed information:

Granite Accents Inc. does its best to select slabs as close to the provided samples of the material. However, because you have selected a natural stone, Granite Accents Inc. can not be responsible for variations in the color and/or pattern in the material. Some natural stone material, by nature, has small pits and fissures which is a signature that it is a natural product. These pits and fissures are not considered imperfections and Granite Accents Inc. will not be held liable for any repairs or replacement of countertops if this occurs. Granite Accents Inc. provides one can of 3-in-1 cleaner and extra cans are available for purchase. – (605)-338-3668

*Even with the above mentioned sealer, natural stone is still a porous material and can be stained if not properly maintained.

I have read, understand and agree to above terms/information.
